ВСТУПЛЕНИЕ

1. Из чего состоит учебно-методический комплекс *Teens' English 6*?
Teens' English 6 является второй из серии книг по английскому языку для средней школы. В учебно-методический комплекс входят: учебник, книга для учителя и мультимедийное приложение.

Учебник *Teens' English 6*

В книге 13 разделов, рассчитанных на 102 часа учебных занятий. Каждый раздел разбит по 6 уроков. Содержание уроков постепенно усложняется.

Учебные занятия на 102 часа разделены по следующим разделам:

- 1 раздел. 6 уроков – 6 часов; контрольная работа – 1 час = 7 часов
- 2 раздел. 6 уроков – 6 часов; портфолио – 1 час; контрольная работа – 1 час = 8 часов
- 3 раздел. 6 уроков – 6 часов; портфолио – 1 час; тест – 1 час = 8 часов
- 4 раздел. 6 уроков – 6 часов; портфолио – 1 час; контрольная работа – 1 час = 8 часов
- 5 раздел. 6 уроков – 6 часов; портфолио – 1 час; контрольная работа – 1 час = 8 часов
- 6 раздел. 6 уроков – 6 часов; портфолио – 1 час; тест – 1 час = 8 часов
- 7 раздел. 6 уроков – 6 часов; портфолио – 1 час; контрольная работа – 1 час = 8 часов
- 8 раздел. 6 уроков – 6 часов; портфолио – 1 час; контрольная работа – 1 час = 8 часов
- 9 раздел. 6 уроков – 6 часов; портфолио – 1 час; контрольная работа – 1 час = 8 часов
- 10 раздел. 6 уроков – 6 часов; портфолио – 1 час; тест – 1 час = 8 часов
- 11 раздел. 6 уроков – 6 часов; портфолио – 1 час; контрольная работа – 1 час = 8 часов
- 12 раздел. 6 уроков – 6 часов; портфолио – 1 час; контрольная работа – 1 час = 8 часов
- 13 раздел. 6 уроков – 6 часов; тест – 1 час = 7 часов

Рабочая тетрадь

После 13-го раздела приводятся страницы «Рабочей тетради». Там приводятся два разных вида упражнений: 1) упражнения, предназначенные для выполнения в классе; 2) упражнения, предназначенные для выполнения дома (домашние задания).

Поскольку писать в учебник нельзя, ученики должны вести отдельную тетрадь для выполнения упражнений, где они переписывают их и выполняют соответствующие задания.

Грамматический справочник

После «Рабочей тетради» размещен компактный раздел «Грамматический справочник». Он содержит общие сведения о всех грамматических явлениях, которые ученики изучают за время курса обучения. Учителя и ученики могут обращаться к нему как за справочным материалом.

Список слов

В самом конце учебника размещен «Список слов», содержащий словарный запас, используемый в учебнике. Слова располагаются в алфавитном порядке и содержат обозначения для частей речи, транскрипцию и перевод на русский, узбекский и каракалпакский языки.

Мультимедийное приложение Учебника *Teens' English 6*

Мультимедийное приложение содержит записанные аудиотексты, диалоги и т.п. в исполнении разных квалифицированных учителей английского языка Узбекистана и лучших учащихся. Оно включает в себя не только все материалы, необходимые для прослушивания заданий из учебника, но также и интерактивные задания. Если у Вас нет мультимедийного приложения, Вы можете сами читать тексты из сценария.

Все сценарии текстов имеются и в Книге для учителя, и в Учебнике для учащихся. Мультимедийное приложение предназначен как для работы во время урока, так и для самостоятельной работы учащихся дома. Мультимедийное приложение не имеет авторских прав и может быть копирован другими учителями и учащимися.

Методическое пособие для учителя к учебнику *Teens' English 6*

Методическое пособие для учителя — это неотъемлемая часть УМК. Всем учителям необходимо иметь его для эффективной работы на уроке.

Методическое пособие для учителя содержит следующее:

- цели и задачи каждого урока и каждого задания;
- в помощь учителям дается краткая информация о языке и культуре страны, изучаемого языка и ключи к заданиям;
- сценарии текстов в мультимедийном приложении;
- четыре образца тестов, которые могут быть использованы для проверки знаний учащихся, с выставлением четвертных оценок (с ответами);
- контрольные работы (с ключами);
- четкие инструкции для учителей о том, как организовать работу по заданиям учебника.

Контрольные работы (Progress checks)

В методическом пособии для учителя даны контрольные работы (с ответами) после следующих разделов: 1, 2, 4, 5, 7, 8, 9, 11, 12. Контрольные работы дают ученикам возможность проверить, как хорошо они усвоили материал раздела. Это эффективный путь для повторения и развития чувства ответственности для самоконтроля. Для каждой контрольной работы выделяется 45 минут.

Аудиозаписи заданий на прослушивание, содержащиеся в контрольных работах, имеются в мультимедийном приложении. Их нужно прослушивать во время выполнения заданий.

Тесты (Tests)

В методическом пособии для учителя нами включены тесты (с ответами) после прохождения разделов 3, 6, 10, 13, которые могут быть использованы для формальной оценки учеников. Для каждого теста выделяется 45 минут.

Все тесты целиком основаны на материале *Teens' English 6* и рассчитаны на то, что если ученик посещал все занятия, выполнял все задания учебника и все домашние задания, то он сможет достигнуть хороших результатов. Аудиозаписи заданий на прослушивание, содержащиеся в тестах, имеются в мультимедийном приложении. Их нужно прослушивать во время выполнения заданий.

2. Наиболее часто выполняемые задания в *Teens' English 6*

Названия уроков и разделов

Они включают новые слова, которые специально не вводятся во время урока. Поэтому учителю важно сфокусировать внимание учащихся на названиях разделов и уроков. В некоторых случаях название включает в себя новые слова или языковые явления, касающиеся данного урока. Цель названий уроков — помочь учащимся понять, о чем будет идти речь на уроке и лучше запомнить его.

Задание «Найди пару» (Matching activities)

В заданиях этого типа ученики подбирают к рисункам новые слова, догадываясь об их значениях. После окончания задания им надо проверить свои ответы с Вами или со своим напарником для того, чтобы узнать правильно ли они выполнили задание. Это задание представляет для учеников большой интерес, чем традиционный метод, в котором учитель сам дает правильные ответы сразу. Это также помогает ученикам развивать когнитивные навыки, например, при сравнении английских слов с их значениями на родном или других языках. Использование одного языка для изучения другого является важным навыком при изучении иностранных языков. (При этом не имеет значения то, правильно или нет выполнено задание. При необходимости Вы сами можете сказать правильное значение слова).

Использование картинок

В *Teens' English 6* все картинки выполняют языковую функцию, направленную на обучение. В книге нет рисунков просто для украшения страниц. Все рисунки должны быть активно использованы во время урока и учителем, и учениками. Пренебрежение к ним может уменьшить эффективность работы учителя и ученика на уроке.

Задание «Прослушай и повтори» (Listen and repeat)

Эти задания, в основном, выполняются после задания «Найди пару», или когда ученики узнали правильное значение новых слов/

структур. Проведенное исследование показало, что изученные таким способом слова запоминаются лучше, чем простое повторение новых слов или структур.

Задание «По цепочке» (Chain Drill)

Данное задание выполняется довольно часто. «По цепочке» — хороший способ работы с новыми словами. Она дает возможность каждому ученику попрактиковаться в произношении новых слов или структур. Задания при этом выполняются очень быстро.

«По цепочке» — задание, выполняемое только в классе. Учитель знакомит с новым материалом. Затем он вместе с одним из учащихся выполняет задание, другие учащиеся наблюдают за процессом. Например, *I like sewing*. Учитель обращается к одному из учеников: *I like sewing. What about you?* Ученик отвечает за себя и задает другому вопрос (*What about you?*). Учитель отвечает за себя и просит учащегося повторить структуру еще раз. После этого учитель просит учеников выполнить это задание в этой же последовательности. Например:

Ученик 1: *I like sewing.* (*Поворачивается к следующему ученику*)
What about you?

Ученик 2: *I like reading books.* (*Поворачивается к следующему ученику*)
What about you?

Ученик 3: *I like drawing.* (*Поворачивается к следующему ученику*)
What about you? и т.д.

Чтобы ускорить процесс, учитель может организовать упражнения «по цепочке» по рядам.

Задание «Покажи и скажи» (Point and Say)

Данное задание используется для практики новых слов. Оно помогает ученикам запомнить новые слова практическим путем быстрее, чем при простом заучивании наизусть.

Задание «Покажи и Скажи» выполняется в парах с использованием картинок. Ученик А показывает на предмет на картинке. Ученик В называет слово. Потом они меняются ролями.

Игры (Games)

Игры, используемые в *Teens' English 6*, служат для двух целей: для создания нужной атмосферы в начале урока и для закрепления новых слов/структур, которые изучались во время урока. Эти задания делают урок интересней и дают возможность полностью повторить языковой материал. Они повышают интерес учеников и дают возможность выучить больше.

Рисование (Drawing)

Некоторые задания в книге требуют учеников нарисовать что-то. Мы обратили внимание на то, что большинство учеников данного возраста делают это с большим желанием, так как этот элемент игры

разнообразит урок. Однако, если некоторые ученики делают это с нежеланием, учителю нужно им объяснить, что для этого задания не надо быть хорошим художником, а сделать простой и понятный рисунок. Когда от учеников требуются определенные данные в рисовании, например, в проектной работе, Вам следует дать ученикам больше времени и помочь им в разработке дизайна рисунка. Кроме этого, убедитесь в том, что в каждой группе имеется хотя бы один ученик, который хорошо рисует.

Учить учиться (Study Skills)

Авторы постарались, чтобы в учебнике было как можно больше заданий, чтобы учить учеников учиться. Эти задания носят разный характер. Так, в заданиях учеников могут попросить самостоятельно найти слово в списке слов, использовать таблицу, сделать нужные записи, применить правила правописания, использовать грамматический справочник и другие. Эти задания учат учеников работать практически и готовят их работать самостоятельно.

Задание «Информационный пробел» (Information Gap)

Задания на «Информационный пробел» развивают навыки истинного общения. В реальной жизни мы не знаем, что именно собираются нас спросить и как кто-то ответит на ваш вопрос. В заданиях этого типа ученики должны обмениваться информацией, спрашивая и отвечая на вопросы. Только при успешном общении можно получить нужную информацию, чтобы выполнить задание. При этом важно, чтобы ученики не показывали свою информацию друг другу. Обычно это задание делится на две части, каждая из которых располагается в разных местах учебника таким образом, чтобы ученики не могли видеть информацию друг у друга.

Ученик А задает вопрос об отсутствующей у него информации, одинаковых или разных вещах и т.д. в его части задания. Ученик В отвечает на вопрос ученика А в соответствии информации в его части. Затем ученик В задает ученику А вопросы.

Памятки (Remember Boxes)

Памятки располагаются внизу страницы учебника и содержат языковой материал. Они удобны для учителей и учеников, так как быстро фокусируют внимание на нужном явлении. До или после введения нового материала, рекомендуется, чтобы учителя обращали внимание своих учеников к примерам, данных в памятке.

Проектная работа (Project)

Проектная работа является неотъемлемой частью этого курса обучения. Это заключительный этап каждого раздела. Она основывается на всей работе предыдущих пяти уроков. Она дает ученикам возможность использовать то, что они выучили во время уроков в непринужденной, более свободной обстановке. Они выбирают сами то,

что им хочется, в обстановке, когда учитель их меньше контролирует. Проектная работа дает возможность ученикам работать на своем уровне; ученикам со слабой подготовкой можно выполнить более простое задание, а более сильные ученики выполняют более сложное задание. Кроме того, ученикам предоставляется возможность гордиться своей работой, знаниями и креативностью. По этой причине очень важно развешивать постеры с работами учащихся в классе, и ученики будут иметь возможность рассмотреть работы друг друга. Ученикам также можно предложить оценить работы других учеников.

Во время проектной работы учеников знакомят с письменным процессом, когда они пишут свои идеи и заметки по теме. Затем они используют свои заметки, чтобы описать что-то, написать статью, письмо, рассказ или стихотворение, оформить постер или программу. Они могут вырезать или нарисовать рисунки, карты, графики, организовать интервью, и т.д. Для этого учителю необходимо иметь в классе специальную коробку с материалами, ножницами, линейками, бумагой, клеем, скрепками и т.д. Или же учитель может попросить учеников принести все необходимое из дома.

Желательно проводить проектные работы в группах с одним и тем же составом учеников, так как ученики привыкают к сотрудничеству внутри группы. Дальнейшие методические рекомендации для каждого проекта даются в методическом пособии для учителя.

Обратите внимание на то, что постеры могут демонстрироваться родителям, чтобы показать успехи учеников в изучении английского языка.

Портфолио (Portfolio)

В Учебнике *Teens' English 6*, во время изучения 2–12 разделов, предусмотрена подготовка портфолио, то есть папки или файла выполненных работ. После проектных работ этих разделов каждому уроку портфолио выделяется еще по 45 минут.

На уроках портфолио ученики готовят свои лучшие работы, проекты, образцовые контрольные работы, тесты, дневники, диаграммы и т.д. по соответствующему разделу. Такая деятельность дает ученикам чувство гордости за свою работу, знания и достижения. Учитель может организовать выставку подготовленных портфолио на стенах классной комнаты, а также показать родителям успехи своих детей на английском языке.

Задания, которые выполняются до, вовремя и после чтения/аудирования (Pre, while and post reading/listening activities)

В *Teens' English 6* используются три шага для того, чтобы читать и слушать эффективно. Эти задания выполняются до, вовремя и после чтения и аудирования.

Задания «до чтения и аудирования» выполняются до чтения и аудирования текстов. Они формируют интерес учеников к теме, помогают им заранее предугадать информацию, приближают их к идеям текста чтения и аудирования.

Задания «вовремя чтения и аудирования» даются во время процесса чтения и аудирования текста. Они помогают тем, кто читает и слушает лучше понять содержание и организацию текста и цель автора.

Задания на «после чтения и аудирования» даются в конце чтения и аудирования текста и уведомят внимание тех, кто читает или слушает за пределы текста. Они помогают соотнести идеи текста со своей точкой зрения, собственными интересами и знаниями или что-то сделать с информацией, полученной в тексте.

Целью использования трех шагов при чтении и аудировании текстов является сделать процесс управляемым, а также приблизить учеников к естественному чтению и аудированию. В повседневной жизни, например, если мы читаем газету, мы сначала смотрим на заголовки и получаем общую идею. Затем мы смотрим и читаем более внимательно.

Виды текстов для чтения и аудирования

Тексты для чтения и аудирования в *Teens' English 6* взяты из жизни и даются в простой форме. Представлены самые разные тексты по жанру: упрощенные статьи из газет и журналов, объявления, выдержки из словарей и энциклопедий, ярлыки и пакеты, письма, радиопередачи, живые интервью, речи на соревнованиях и т.п.

Интеграция навыков

В *Teens' English 6* все четыре навыка: слушание, говорение, чтение и письмо обучаются в интегрированном виде. Причиной тому служит тот факт, что в реальной жизни мало случаев, когда мы не говорим или не пишем о том, что мы прочитали, или когда мы не соотносим то, что прочитали с тем, что мы могли услышать. Таким образом, мы попытались объединить разные умения друг с другом через выполнение различных заданий следующих типов:

- чтение и письмо. Например, прочитать и заполнить таблицу, написать краткое изложение, написать ответное письмо, написать о себе, сделать заметки, написать вопросы, написать свое мнение и т.д.
- чтение и слушание. Например, прочитать и проверить информацию, слушая текст, найти соответствие в текстах и мнениях и т.д.
- чтение и говорение. Например, прочитать и ответить на вопросы, назвать правдивую и ложную информацию, обсудить информацию в тексте, принять участие в дебатах и т.д.
- слушание и чтение. Например, послушать и поставить картинки по порядку, найти нужную информацию в тексте и т.д.
- слушание и письмо. Например, послушать и написать недостающую информацию, заполнить таблицы, написать мнение и т.д.
- слушание и говорение. Например, послушать и ответить на вопросы, участвовать в дискуссии и т.д.

Произношение

На данном этапе правильное произношение формируется у учеников после прослушивания значений слов и повторения после мультимедийного приложения или учителя. Проведенное исследование по-

казало, что более легкий и эффективный способ обучения произношению слов является тот, при котором ученики используют новые слова в сочетании с уже знакомыми.

Авторы *Teens' English 6* полагают, что на этом уровне важно вводить некоторые правила чтения, которые предлагаются в мультимедийном приложении. Учителя должны использовать эти упражнения при каждом удобном случае во время прохождения очередного раздела.

Первым заданием каждый раз будет привлечение внимания учеников к тому, какие буквы могут передавать этот звук. Затем ученики практикуются в чтении слов с этим звуком. Учеников знакомят с фонетическими символами. (Задания даны в мультимедийном приложении для каждого раздела под символом с наушниками).

Дополнительные упражнения на грамматику

В заданиях представлены дополнительные упражнения для отработки грамматических явлений, пройденных в разделе или на уроке. Учителя и ученики могут использовать их в удобное для них время во время урока или при повторении раздела. Целью этих заданий является возможность для учеников получить дополнительную практику к усвоению полученных грамматических знаний. Они также дают возможность более слабым ученикам получить дополнительную практику по грамматике. Кроме того, эти упражнения дают возможность ученикам работать самостоятельно и автономно. Дополнительные упражнения по грамматике представлены в мультимедийном приложении для каждого раздела под символом ABC.

Перевод

Перевод используется для того, чтобы показать схожести и отличия между родным и английским языками. Ученики переводят отдельные предложения, структуры и короткие тексты на родной язык. Навыки перевода будут дальше развиваться в 7–9 классах.

3. Новый подход в *Teens' English 6*

Teens' English 6 выполнен в соответствии с Государственным образовательным стандартом и Программе для иностранных языков, которые были разработаны и одобрены Научно-Методическим советом по иностранным языкам в 2017 году. Программа основана на темах, которые были отобраны после консультаций с учениками и учителями в разных регионах Узбекистана.

Teens' English 6 ставит целью помочь развитию **четырёх языковых навыков**: чтения, слушания, говорения и письма. Делается упор на обучение современному английскому языку для коммуникативных целей. Поэтому особое внимание уделяется говорению и аудированию, которые в прошлом игнорировались. Безусловно, начинающие обучение нуждаются в приобретении хорошей базы знаний по **грамматике, произношению и хорошим запасом слов**, которые систематически развиваются. Запас слов в *Teens' English 6* отобран и организован в соответствии с темами, а грамматический материал интегрирован с

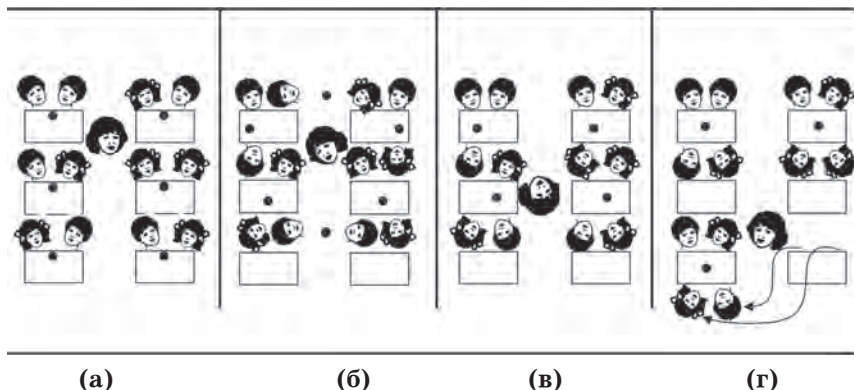

навыками говорения. В учебнике 6 класса большое внимание уделяется регулярному развитию первичных навыков перевода. На этом этапе целью является дать возможность ученикам сравнить слова и выражения на иностранном языке с родным языком и выявить между ними разницу. Основным отличием между *Teens' English 6* и другими учебниками, которыми Вы, возможно, пользовались, это то, что *Teens' English 6* поддерживает подход в обучении, **направленный на обучаемого (learner-centered approach)**.

Что это означает? Мы ощущаем, что в прошлом основное внимание уделялось роли учителя в процессе обучения и недостаточно на самих учащихся. Разумеется, роль учителя велика, но исследования показали, что ученики учатся общению более эффективно, если им дают больше возможностей практиковать и экспериментировать с новым языком. Поэтому методика, направленная на обучаемого, используемая в *Teens' English 6*, ставит целью поставить учеников-обучающихся в центр всего, что происходит в классе. По этой причине *Teens' English 6* содержит много заданий, упражнений, дебатов, проектов и игр, которые вдохновляют учеников использовать новый материал естественным путем, через работу в парах и группах. Конечно, Вам еще надо вводить новые слова и грамматику своим ученикам, но при подходе, направленном на обучаемого, Вам нужно будет много времени уделять организации и мониторингу парной и групповой работы.

Организация урока при подходе, направленном на обучаемого

Ваши ученики будут часто работать в парах, по трое, по четверо, поэтому целесообразно обдумать заблаговременно, как организовать эту работу. Сгруппировавшись несколько раз, ученики станут делать это быстро. Ниже приводятся несколько рекомендаций о том, как разделить учеников на пары, тройки, четверки в классе с фиксированной мебелью. В диаграмме внизу ученики показаны как  или , а учитель как .

парная работа парная работа группа из трех группа из четырех

а) Здесь двенадцать учеников выполняют работу. Учитель слушает. Точками показаны места, на которые фокусируются ученики.

б) Здесь те же самые двенадцать учеников, выполняющих парную работу, но в этот раз с другими партнерами, хотя они сидят на прежних местах. Учитель помогает.

в) Здесь те же двенадцать учеников, работающих по трое. Они опять сидят на своих местах. Учитель слушает одну из групп.

г) В этих группах из четырех, ученики могут работать по двое с партнером, сидящим напротив, для некоторых это новый партнер. Учитель замечает ошибки и записывает их для дальнейшего разбора на уроке.

Роль учителя при подходе, направленном на обучаемого

Наиболее частой причиной, почему ученики не могут общаться в реальной жизни, являются следующие типы взаимодействия, к которым они привыкли:

а) Учитель читает лекции в классе. Все взаимодействие заключается в учителе и через учителя.

б) Учитель просит одного из учеников встать перед классом, а остальные ученики или слушают ученика, или говорят с ним/ней.

в) Учитель слушает или говорит с одним из учеников, находящимся за партой.

г) Учитель просит двух учеников говорить друг с другом (например, рассказать выученный наизусть диалог).

д) Если учеников просят поговорить друг с другом, они обычно говорят по очереди, вместо естественного разговора. Более того, учитель находится всегда рядом, слушая все, что говорится. Если учитель будет организовывать парную или групповую работу, ученики будут иметь возможность общаться более естественным образом.

Следующие иллюстрации некоторых типов взаимодействия в классе помогут показать, что в большинстве случаев одновременно возможен только один тип взаимодействия и что учитель обычно один из говорящих.

Здесь мы видим тип взаимодействия, который соответствует для групповой работы с заданиями *Teens' English 6*.

Коммуникативное задание при подходе, направленном на обучаемого

с фиксированными партами

с передвигаемыми партами

Как мы видим, учитель может свободно слушать, мониторить, планировать наперед, пересматривать следующие шаги и слышать, как ее или его ученики учат друг друга новым словам и грамматике, которую они знают.

Во время коммуникативных заданий, учитель не «учит», а организует и осторожно мониторит и слушает учеников, чтобы убедиться, что все в порядке. Учитель вмешивается только в том случае, если уверен, что ученики не могут справиться сами. Учитель должен быть как дирижер оркестра: управлять, но не играть. Сначала Вам может быть сложно организовать такие задания, но со временем Вы привыкнете.

Мы уверены, что Ваши ученики найдут такие задания мотивирующими и увлекательными и будут помогать Вам.

Работа над ошибками, совершенными во время говорения

В настоящее время многие учителя считают трудным принять решение о том, надо ли исправлять каждую допущенную ошибку у учеников. В традиционном классе наибольшее внимание уделяется правильности, поэтому каждая ошибка немедленно исправляется. Проблема состоит в том, что многие ученики начинают неохотно говорить, так как боятся сделать ошибку, и что их тут же будут исправлять.

В классах с подходом, направленном на обучаемого, где учеников поощряют использовать английский язык для реального общения, беглость речи так же важна, как и правильность. В *Teens' English 6* мы не предлагаем совсем не исправлять ошибки, но этот процесс можно выполнить во время задания «после говорения». Если Вы будете поступать подобным образом, тогда Вы не будете беспрерывно перебивать учеников. Конечно, Вам придется запоминать ошибки, допущенные учениками, поэтому мы предлагаем их записывать во время обхода класса. В конце задания Вы можете обратить внимание учеников на общие или важные ошибки, которые Вы записали.

Шум

В классах с подходом, направленном на обучаемого, шум во время задания неизбежен, но его надо воспринимать как контролируемый и конструктивный. Приучите своих учеников говорить тихо и вежливо во время парной и групповой работы и быть готовыми к тому, что те, кто первый выполнит задание, получит дополнительное. Если Вы перед выполнением задания дадите ученикам ясные и понятные инструкции, Вы убедитесь в том, что ученики смогут выполнять задания намного организованнее и без лишнего шума. Установите четкие правила о том, как ученики должны говорить с Вами и друг с другом.

Использование родного языка

Авторы *Teens' English 6* верят, что английский язык лучше всего изучать на английском языке, поэтому мы ожидаем, что Вы будете использовать английский язык как можно чаще на уроке. Несомненно, есть случаи, когда ученикам необходимо дать объяснения и

пояснения на родном языке. Однако, мы надеемся, что Вы преодолеете искушение переводить все. Исследование показывает, что ученики учатся более эффективно, если их поощряют догадываться о значении слов самостоятельно.

Проверка домашнего задания

У каждого опытного учителя есть свой собственный подход к проверке домашнего задания. Ниже предлагаются несколько подсказок для начинающего учителя.

Как?

Имеется несколько путей проверки домашнего задания.

а) Традиционный метод. Учитель берет на проверку тетради и исправляет каждую ошибку.

б) Нетрадиционный метод. При проверке тетрадей учитель использует два цветных карандаша или ручки. **Зеленый цвет** – предупреждение. Когда ученик допускает ошибку в первый раз, Вы подчеркиваете ее зеленым цветом. В данном случае ученик должен работать над ошибкой. **Красный цвет** – плохо. Когда ученик делает одну и ту же ошибку во многих упражнениях, Вы подчеркиваете ее красным цветом. Здесь ученик должен тщательно проработать допущенную ошибку. Вы можете исправлять ошибки сами, но лучше дать возможность ученикам сделать это самим. В этом Вы можете оказать им помощь. Вы можете проставлять на полях специальные символы: **Gr** – грамматическая ошибка, **Sp** – неправильное написание, **WO** – неправильный порядок слов, **P** – неправильные знаки препинания.

в) Метод самопроверки. Ученики проверяют свои тетради сами, используя данную модель (например, учитель спрашивает учеников и пишет правильный ответ на доске).

г) Метод взаимопроверки. Учитель просит учеников обмениваться тетрадями и исправлять ошибки, используя модель, которую им дали.

Когда?

а) Пока ученики выполняют классное задание, Вы можете пройти по рядам и быстро просмотреть все работы. Хорошо, когда у учеников имеются две тетради: одна для классной, другая для домашней работы.

б) Вы можете проверять домашнее задание учеников во время выполнения проектной работы.

в) Вы также можете взять тетради учеников для проверки домой.

Очень **важно** проверять тетради для упражнений учеников, потому что:

- Это помогает усвоить полученные знания за три урока в неделю и достичь хороших результатов. Если вы не проверяете домашнее задание, ученики перестанут их выполнять.

- Ученики будут делать ошибки при выполнении домашнего задания. Каждая допущенная ошибка — это возможность чему-то научиться, если Вы сможете найти ее. Если Вы этого не будете делать, они упустят возможность что-то выучить и даже получают неверные знания!

- Таким образом, Вы можете наблюдать за прогрессом учеников.
- Вы можете стимулировать учеников, устраивая выставки, соревнования и т.д.

- Это помогает в работе с родителями.

Расчет времени

Обратите внимание на то, что время на выполнение заданий на уроке дается приблизительно. Учителя могут изменять его в зависимости от интересов учеников, их потребностей и возможностей.

Получите удовольствие, обучаясь с *Teens' English 6* !

Мы, авторы, с удовольствием работали над созданием *Teens' English 6*. Теперь мы надеемся, что Вы, учителя, получите удовольствие, используя его со своими учениками. Удачи Вам и Вашим ученикам!

Culture and Language Notes

There is a rhyme that is quite popular with English girls who believe they should have all the four things on their wedding day. These things are supposed to bring luck and happiness to the bride.

Something old,	Biror eski narsa,	Что-то старое,
Something new,	Biror yangi narsa,	Что-то новое,
Something borrowed,	Biror qarzga olingan narsa,	Что-то взятое взаймы,
Something blue.	Biror ko‘m-ko‘k narsa.	Что-то голубое.

English people ask their nephews/nieces or the children of friends to be page boys or bridesmaids at their wedding. The bridesmaids and page boys are responsible for carrying the bride’s dress. After the wedding party, before leaving, the bride throws the bouquet into the crowd. People believe that the girl who catches it is the next to get married.

Well, the first thing I want to tell you is that carrots (1) *are bad* for rabbits' teeth. A lot of people don't know this. But rabbits (2) *shouldn't eat carrots*. Rabbits' teeth grow very quickly: two millimetres a week. Usually this is OK because in the wild rabbits eat (3) *a lot of grass*. In fact they eat for half the day. But domestic rabbits always (4) *stay at home*. They don't eat much grass. We give them other things like carrots. But this gives rabbits a problem. Their teeth grow and grow fast. They get very long and this is bad for the rabbit.

So remember – don't give your rabbit a lot of carrots. One or two (5) *carrots a week* is good. Give your rabbit lots of grass.

Culture note: All the food represented here is international. It means that ingredients come from many places. But some food has history of origination.

The history of **pizza** begins, when various ancient cultures produced flatbreads with toppings. The flat bread known to the Romans was focaccia, to which toppings were then added. Modern pizza developed in Naples in the late 18th century.

The term “burger” is associated with many different types of sandwiches, similar to a **hamburger**, but made of different meats such as kangaroo, turkey, fish or veggie burgers. Adding cheese to hamburgers became popular in the 1920s. Lionel Sternberger is reputed to have introduced the **cheeseburger** in 1926 at the age of 16 when he was working at his father’s sandwich shop in California.

As with most foods which are popular and which have spread throughout the world the history of **pasta** has been romanticized through legend and myth. A story about Marco Polo bringing pasta back to Italy on his return from China was given credence for many years.

Bread was central to the formation of early human societies. In the western half of Asia, wheat was domesticated and then spread north and west, to Europe and North Africa.

Chocolate is made from the cocoa beans. The chocolate drink originally came to Europe from Mexico. It had been brought by Hernan Cortes, a Spanish soldier in the first half of the 16th century.

A **hot dog** is also known as a **frankfurter**. This type of sausage was culturally imported from Frankfurt city in Germany to the United States, where it became very popular. The hot dog became closely associated with baseball and American culture.

Fish and Chips is a kind of food that originally came from the United Kingdom. It is a popular kind of fast food in some parts of the world. They are common in British cities. The first Fish and Chips were found in London in the 19th century.

While they are discussing, walk round, listen to their ideas and give help. When they start writing, help with vocabulary and grammar.

fairy tale and what caption to write for their picture. Explain to them that the best caption is usually a phrase or a sentence from the text. It would be better if the pupils use separate pieces of paper for titles and pictures with captions. If everything goes right, in the end you will have a nice collection of fairy tales and pictures, which you can bind and make a journal.

Announcer: And what about in England, David and Victoria?

David: Well, it's different. In England boys don't shake hands when they meet.

Victoria: Yeah, and girls don't shake hands when they meet. Only grown-ups shake hands. And they shake hands when they meet and when they say goodbye. Grown-ups who don't know each other well shake hands. Friends don't shake hands. And it's the same in America.

Announcer: So that's different from Uzbekistan.

Timur: Yes. Men in Uzbekistan shake hands with their friends. But it's different for women. Women kiss each other.

Victoria: Women in England kiss each other if they are relatives or good friends. But if they don't know each other they shake hands.

Announcer: Well, that's all for today. Timur, Ulugbek, Boris, Andrei, David and Victoria – thanks. *(Music)*

Activity 5a Read, copy and complete. 7 min

Objective: to develop writing skills with the help of a reading activity

Objectives: to consolidate the cultural knowledge in the form of a game; to have fun

STEP 1: Make groups of three.

STEP 2: Explain that two pupils in each group should decide what people they are going to be. Tell them to keep it a secret from the third pupil.

STEP 3: Then they greet each other without saying anything, the third pupil should guess what people they are.

Activity 1 Play “My Hobby”. 5 min

Objectives: to get pupils warmed up; to revise vocabulary related to hobbies

STEP 1: Start the activity with the whole class. Say three key words about your hobby, e.g. poems, birthdays, friends. The pupils should try and guess what your hobby is. The answer here is: ‘*My hobby’s writing poems for my friends on their birthdays*’.

STEP 2: When the procedure is clear, the pupils continue playing the game in groups. They take turns giving key words and guessing each other’s hobbies.

Activity 2a Answer the questions about your last weekend. 5 min

Objectives: to get ready to talk about weekend activities; to revise Past Simple

Ask the pupils to work individually. Explain that they read the questions and write their answers in their exercise books. Ask them not to write long sentences. They can write a word or a phrase, e.g. in answer to question 3 they can write 'By bus'.

Activity 2b Work in pairs. Ask your friend about his/her last weekend.
5 min

Objective: to give less-controlled practice in talking about weekend activities

Ask the pupils to work in pairs. Explain that, first, one pupil asks the questions in activity 2a and the other answers, then they swap over.

Activity 2c Report. *5 min*

Objective: to give further practice in talking about weekends

Ask three or four pupils to report to the whole class about their partners' weekends.

Activity 3a Look and make a story. Use the words. *10 min*

Objective: to practise making a story using the pictures and the suggested vocabulary

Work with the whole class. Using the words in the cloud the pupils make a story about Mr Whitfield. You could ask more than one pupil to talk about each picture.

Activity 3b Work in pairs. Answer the questions. *5 min*

**Objectives: to practise talking about events in the past;
to practise inferring meaning from context**

In pairs the pupils read and answer the questions.

Activity 4 Copy and complete the sentences. *8 min*

**Objectives: to revise the vocabulary;
to reinforce the story structure**

The pupils copy the sentences and complete them in their exercise books using the words in the cloud.

Remind that every story has basic components: characters, setting, plot, theme, and conflict or problem. These elements answer the basic questions: Who? What? When? Where? Why? and How?

Answer key:

Mr Whitfield decided to go (1) *fishing*. In the morning Mr Whitfield went to the (2) *supermarket* and bought (3) *bread, sausages* and (4) *fruit*. Before (5) *fishing* he decided to have (6) *lunch*. After (7) *lunch* he decided to have (8) *a rest*. He didn't catch any (9) *fish* but he had a nice (10) *day*. On the way home he went to the (11) *supermarket* again and bought some (12) *fish*. His children were happy.

Note: If you want, you can choose any song to sing as a warm-up song.

Activity 1 Look and answer the questions. 5 min

Objective: to practise talking about how animals can help people

Ask the pupils to look at the picture of the boy and the dolphin. You might want to ask them to tell you how the dolphin is helping the boy. A possible answer is: *The dolphin is helping the boy to swim.* Among other animals that help people pupils can name horses, elephants, donkeys, dogs, etc. They all help people to do different kinds of jobs.

Activity 2a Read and answer the questions. 5 min

Objective: to practise reading for the main ideas

The pupils read the text silently and answer the questions.

Activity 2b Work in pairs. Answer the questions. 5 min

Objective: to practise talking about the role of animals in people's life

STEP 1: In pairs the pupils take turns to read the questions and answer them.

STEP 2: When most pupils are ready, discuss the questions and answers with the whole class.

Activity 2c Work in pairs. Answer the question. 8 min

Objective: to practise talking about the jobs dogs can do

Tell your pupils that the pictures and the words in the cloud can help them to answer the question.

Answer key:

1) Dogs help people who cannot see. 2) Dogs can work with the police. 3) Dogs can save people in water. 4) Dogs can work in a circus. 5) Dogs can find people in the mountains and save them. 6) Dogs can work in space. 7) Dogs can help farmers to look after their sheep. 8) Dogs can find people after earthquakes and save them.

Activity 2d Write five sentences. 10 min

Objective: to reinforce the vocabulary

The pupils choose and write five sentences about the jobs dogs can do. If your pupils are strong, they can think about some other things and write sentences of their own.

Activity 3 Work in groups. Answer the questions. 10 min

Objective: to practise talking about how people can help animals

In groups the pupils discuss the two questions. If time allows, you can ask several groups to report.

Homework 2 min

Ask the pupils to look at the homework on Page 112. Check that everybody understands what to do with the task. If necessary, explain how to do the homework.

Lesson 4 What's the best transport?

Aims	Learning outcomes	Vocabulary and structure	Required equipment
<p><i>Educational:</i></p> <ul style="list-style-type: none">- to learn about different kinds of transport and caravans. <p><i>Developing:</i></p> <ul style="list-style-type: none">- to enable pupils to talk about different kinds of transport;- to enable pupils to use superlatives;- to practise reading for gist;- to develop listening for specific information and checking predictions.	<p>At the end of the lesson pupils will be able to:</p> <ul style="list-style-type: none">- talk about different kinds of transport;- read for gist;- use superlatives;- talk about animals people can use for work and transport.	<p><i>Recycling the previously learnt vocabulary</i></p> <p>New: ship, mile</p>	<p>Pupil's Book; the DVD</p>

Note: If you want, you can choose any song to sing as a warm-up song.

Activity 1 Play "Simon Says". 5 min

Objectives: to get pupils warmed up; to revise directions

This is a normal Simon Says game. The only difference is that the pupils play in groups, one against the other.

STEP 1: In groups the pupils discuss the things they would like the other group to do.

STEP 2: When they are ready, a pupil from group A tells group B what to do. Group B do it only if they hear the words 'Simon Says we want Group B to...'. Then it is the turn of a pupil in group B to say what they want group A to do and so on.

Activity 2 Look, listen and match. 5 min

Objective: to revise the words for transport and their pronunciation

STEP 1: Ask the pupils to match the words and pictures.

STEP 2: After they have finished, say the first word in the list and ask the pupils to repeat it after you all together and in rows. Repeat the procedure for the rest of the words in the list.

Answer key: 1b, 2j, 3a, 4h, 5d, 6c, 7f, 8g, 9e, 10i

Activity 3 Chain Drill. 5 min

Objectives: to revise superlatives;

to practise the words for transport

In this Chain Drill the pupils practise the superlatives. Tell them they can use the adjectives in the cloud when they talk about the transport in activity 2. The pupils' answers will depend on what they think about particular kinds of transport, e.g. some may say '*Boats are the slowest transport*', while others may think that bicycles are the slowest.

Activity 4a Make a diagram. 8 min

Objective: to reinforce the vocabulary related to transport

The pupils should draw a linear diagram, marking kinds of transport starting from the slowest to the fastest. The suggested answer is:

1 bicycles, 2 boats, 3 trams, 4 buses, 5 trains, 6 ships, 7 cars, 8 metro, 9 helicopters, 10 planes

It is obvious that the pupils will have different opinions about which kind of transport is faster and which is slower than others, but the order in the diagram really does not matter much, as the objective is not to create a perfect diagram but to practise superlatives.

Activity 4b Work in groups of 4/5. Answer the question. 5 min

Objective: to practise talking about different kinds of transport using the superlatives

In groups of four or five the pupils talk about which transport they think is the best. Ask them to use the example and the adjectives in the cloud.

Activity 5a Look at the picture and answer the questions. 5 min

Objectives: to practise talking about caravans;

to prepare for the next activity

Ask the pupils to look at the picture, read and answer the questions.

Answer key: 2) In eighteen hundred; 4) As the question is rather difficult and the general knowledge of pupils can be different, the answers can be given in pupils' mother tongue.

Activity 5b Read the text and give a title. 5 min

Objective: to practise reading for gist

STEP 1: The pupils read the text silently and think of a title.

STEP 2: Accept all titles, write them on the blackboard.

STEP 3: Ask the pupils to choose the best title.

Activity 5c Answer the questions. 5 min

Objective: to give further practice in talking about caravans

Work with the whole class. Listen to as many answers as pupils are willing to give, but make sure you have enough time for the next activity.

Optional Activity 5d Look and answer the questions.

Objective: to practise talking about animals people can use for work and transport

As in the previous activity, listen to as many pupils as time allows. As part of homework ask the pupils to copy the plan in Lesson 5 Activity 2a on Page 82.

Homework 2 min

Ask the pupils to look at the homework on Page 112. Check that everybody understands what to do with the three tasks. If necessary, explain how to do the homework.

Note: The pupils can read the grammar points about Past Simple on pages 120-122, where they can find information about irregular verbs.

Lesson 5 What's next to ...

Aims	Learning outcomes	Vocabulary and structure	Required equipment
<p><i>Educational:</i></p> <ul style="list-style-type: none">- to learn how to speak about the location of places using the prepositions of place;- to learn to work with maps. <p><i>Developing:</i></p> <ul style="list-style-type: none">- to enable pupils to talk about the location of places using the prepositions of place;- to enable pupils to give reasons;- to practise saying long sentences with attention to the word order.	<p>At the end of the lesson pupils will be able to:</p> <ul style="list-style-type: none">- talk about the location of places;- give reasons;- use the prepositions of place;- say longer sentences with correct word order.	<p><i>Recycling the previously learnt vocabulary</i></p>	<p>Pupil's Book; the DVD</p>

Note: If you want, you can choose any song to sing as a warm-up song.

Activity 1 Play "I Spy ...". 5 min

Objectives: to get pupils warmed up;

to revise prepositions of place

Pupil A thinks of an object in the classroom and says its first letter as in the example, in which 's' can stand for 'schoolbag'. The rest should ask questions using the prepositions in the cloud and try to guess the word. The person whose guess is right can be the next to think of a word.

Activity 2a Work in pairs. Copy and complete the plan. 5 min

Objective: to practise talking about the location of places

STEP 1: Make sure the pupils have copied the plan from the page into their exercise books (it was part of their homework).

STEP 2: In pairs they each look at the plans on Pages 71 and 82, and ask and answer questions as in the example and complete their maps. They should use the prepositions of place in the cloud.

Activity 2b Look and find what places you can add. 5 min

**Objectives: to revise the names of places;
to prepare for the next activity**

Ask the pupils to look at their completed plans and think about the places that are not on the plan but could be there, e.g. a school. You could write the places they suggest on the blackboard.

Activity 2c Work in groups. Add to the map. 5 min

Objective: to practise giving reasons

The pupils work in groups. Ask them to read the words in the speech bubbles first. This will help them to carry on a discussion, at the end of which they should be able to add one more place to the plan, say where they would like to have it and explain why they think it is a good location. The pupils can choose from the list on the blackboard.

Activity 2d Present your group plan. 5 min

Objective: to give further practice in talking about the location of places

Each group reports to the whole class using the example in the book.

Activity 2e Choose and make your class plan. 8 min

Objective: to give the pupils an opportunity of reaching consensus while working as a class

From the groups' suggestions the ones approved by the whole class should be added to the plan. Simple voting can do this. From 4-5 suggestions the pupils should choose 1-2 which suit everybody.

Activity 3 Play the "Longest Sentence". 10 min

Objective: to practise sentence building with attention to the word order

A pupil says a sentence. The second pupil should make it longer by adding a word. The third pupil adds another word and so on. Make sure the pupils observe the word order and do not say sentences which have no meaning.

Homework 2 min

Ask the pupils to look at the homework on Page 112. Check that everybody understands what to do with the two tasks. If necessary, explain how to do the homework.

Lesson 6 I can... I know...

Aims	Learning outcomes	Vocabulary and structure	Required equipment
<i>Developing:</i> - to enable pupils to check self-development; - to encourage pupils to revise the material they have learnt	At the end of the lesson pupils will be able to check self-development.	<i>Recycling the previously learnt vocabulary</i>	Pupil's Book; the DVD

Note: If you want, you can choose any song to sing as a warm-up song.

Activity 1 Do the quiz. What can you do in English? How much do you know? Write correct sentences. 23 min

Objective: to revise the material studied in Units 1-13

The pupils work in pairs. They discuss the answers and write them in their exercise books. Go round and check what the pupils have written, and help if necessary.

Activity 2 Count how many things you can do. Compare with others in the class. How did you do? 20 min

Objectives: to let pupils see how much they can do in English;
to encourage them into revising the material they have not learnt properly

Ask the pupils to count any 33 things they can do out of the 37 things. Each thing is worth 3 marks, giving a total of 99 (they can call it 100). Ask the pupils to count how many things each of them can do. They may want to compare their results with some other pupils in the class.

Homework 2 min

Ask the pupils to get prepared for Test 4.

TEST 4

DVD script:

On Sunday I celebrated my birthday. That was my best birthday! I had a beautiful birthday party in our garden. I usually invite my best friends and relatives for my birthday party. My mother cooked a big tasty cake. I got many boxes with presents. I wanted to know what was in the boxes. It was so interesting to look at all presents. I got a lovely picture from my brother, two interesting books from my aunt and uncle. A CD with songs of my favorite singers was from my father, and a big box of chocolates was from my friend Diana. My grandmother gave me beautiful flowers. And I had a lot of birthday cards from my friends.

We danced, sang songs and played funny games with clowns. I liked my birthday party very much.
